

Remote controllable
Group programmable
RF Inter-communicable

Features

- Built-in intelligent sensors, automatic adjustment.
- Automatically dim from 0-89% on standby mode, quickly light up 100% once a moving object is detected by the built-in motion sensors.
- The energy saving mode & stay on mode are optional.
- With remote, it offers RF intercommunication as the lights set in group can be light up automatically one by one.
- Made of alloy housing, durable, anti-corrosion, water-proof and dustproof.

Intelligent Control

1. When people come close, the smart lamp quickly light up to 100% brightness.
2. When people or car leaving, the smart lamp drop to 10% brightness automatically.

Remote Control

1. Through the remote controller, you can set all light in one group, when moving objects come close, the smart lamp light one by one, when the moving objects leaving, The lamps reduce to the minimum brightness one by one automatically.
2. Through the controller, you can set the lighting time
3. You also can adjust the brightness by the remote controller.

Specification

Model	DL-12SM
Power Consumption	12W
Color Temp.	<input type="checkbox"/> Warm white (3000±500K) <input type="checkbox"/> Nature white (4500±500K) <input type="checkbox"/> Cool white (6000±500K)
Luminous Flux	<input type="checkbox"/> ≥720Lm (WW) <input type="checkbox"/> ≥780Lm (NW) <input type="checkbox"/> ≥840Lm (CW)
Power Factor	≥0.5
Beam Angle	110°
CRI	≥80
Input Voltage	AC 100-240V
Dimension	Ø176x60mm
Hole Size	Ø152mm
Dimmable	Yes
Material	Aluminum
Weight	0.6Kg
Working Temperature	-20°C~40°C(≤95%RH)
Life Span	≥50000Hrs.
Certificate	CE, EMC, FCC, LVD, RoHS
Warranty	3 Years

Keep 10% brightness in Standby mode

Light up to 100% when detected

Intercommunication - The lights set in a group can be it up automatically one by one
